

## **“Quality Statement of the College”**

**Quality is a Journey. It is a State of Becoming, punctuated by its moments of Pause, Reflect, Plan, Move and Review. The Dynamism of the Process is Reflected and Captured in those moments, showing Peaks and Dips rather than a flat curve. The Quest for Quality is an Unending Process and Indraprastha College for Women is Committed to it as a Higher Education Institution.**

As a HEI, the College seeks quality in the areas of

- i. Curriculum Enrichment and Planning
- ii. Academic Standards
- iii. Institutional Infrastructure
- iv. Maintenance
- v. Social Engagement
- vi. Professional Interaction
- vii. Employee Engagement

### **Operationalization**

Quality is not an end in itself and is meaningless if it is not manifest in the here and now, in the everyday of a HEI. With this seemingly mundane but larger goal in mind, the College

- i. chalks out its tasks in three to four focus areas every year for intervention
- ii. consolidates the gains of the preceding movements and interventions
- iii. plans strategies of endorsement of accountability
- iv. reviews plans and strategies
- v. reinforces ethical standards
