Welcome to Indraprastha College for Women!!!

'Indraprastha' as the name denotes 'the city of God Indra' has a rich legacy of women's education in India. This is a “Women City of Dreams, Academic Excellence, Achievements, Leadership, Emotional Intelligence and Gratification.

The college was established in 1924 as the first women college of University of Delhi. The college has been a witness to the Indian women's movements of right to education, empowerment, equality, social injustice and active involvement in the Independence struggle for freedom. Those were the days when the girls from this college participated in freedom movements against the colonial powers by joining the Father of nation Mahatma Gandhi.

The grandeur college main building reminds of the British architect of the colonial times. A heritage walk through history of the campus tells the saga of the Indian women's revolution to fight for the rights of the education for girls. Those were the times when women were not sent to schools and colleges. But this institution had seen women actively working in all spheres of life whether socially, culturally or professionally. With changing times the College has grown as an institution devoted to excellence in teaching and learning. The sprawling green campus, accomplished faculty, research orientation, Internship programs, and the cutting-edge educational facilities at Indraprastha College helps its students to grow up as confident and independent young women, taking up diverse roles and developing as socially conscientious citizens.

With changing global scenarios after the COVID times, the college is collaborating with international organisations for various environmental and sustainable development programs. The research centres provide excellent facilities to the students to learn more about international issues and their governance. The mission is to steer the education it offers not only to lead to the pragmatic goal of employability, but also to construct a life of the conscious mind and orient its students to the service of the community, in the quest for a better society and the world that we inhabit. The college firmly believes on the sustainability by transforming the innovative ideas into the reality based on the concept of “Vaisudev Kutubakam”, i.e. the entire earth as one family.

The college has vast green tracts with many trees as old as more than hundreds of years. The different species of flora, birds and butterflies makes this place heaven for nature lovers. The college campus is free of plastic pollution with Zero SUP Zone. The green community campus also has a solid waste management process by following the principles of waste segregation in the campus. The organic waste from the green spaces are used for manufacturing its own manure. The college is actively focusing on the Sustainable Lifestyle making it an important component of IP campus.

The college holds a leading position both in academics as well as in co-curricular activities. We are dedicated to creating a learning atmosphere where students can hone their skills not only in academics, but also in sports, and extra-curricular activities. We aim to help young minds achieve their full individual potential as well as to inspire them to contribute to social growth and to acquire a global perspective. We believe in learning collectively by exchanging ideas. The college has developed a specific corpus fund to engage students in research across disciplines which is supervised by our skilled professors in order to maximise their analytical, critical-thinking, pragmatic and innovative skills.

The College compounds traditions with modernity, where the Indian socio-cultural values blend with the modern scientific principles. The women of this institution had the courage to ask for a swimming pool 66 years ago when it was unthinkable for women to swim in public. Our college stands as the only Women's College to have a Swimming Pool in its Campus. It has extensive Sports facilities that include Tennis, Basketball, Badminton, Yoga, Archery, Shooting, Fitness Centre and Climbing Wall among others. The College hosts hundreds of young aspiring women in two of its Student Residences: the Kalavati Gupta Student Residences and the Indraprastha College Women's Residences with the option of air-conditioned rooms. Our aim is to give homely and family comforts to our students. The college committees work round the clock to take care of the students living in these residents.

Indraprastha College for Women is the only College of the University of Delhi and the Country, to offer B.A. (Hons.) Multi Media and Mass Communication. The Course is self-financed and approved by the University of Delhi. The College has the infrastructure including a fully equipped studio, a radio production centre, editing bays, Multi Media Lab, updated software and applications, and the equipment required for in-house training and production related to the Course. The Alumina of the department were the pioneers in the field of media and journalism in the country.

We are committed to the successful implementation of the National Education Policy that envisions a holistic development of the Indian youth, with a great emphasis on skill development, innovations and creativity. We reiterate our commitment to the goals of women's empowerment with strong cultural values of commitment, leadership, social and environment consciousness leading to the sustainable and ethical global community.

Looking forward to meeting you to celebrate the enriching history of the institution.

**Prof. (Dr.) Poonam Kumria**

## History & Heritage

The Indraprastha College for Women was founded in 1924 and is the oldest women's college of the University of Delhi. It began with three students, in a room on the second floor of an old, now heritage, mansion housing the Indraprastha Girls' Senior Secondary School, in Chippiwara in the Jama Masjid area of Chandni Chowk, in the walled city of Old Delhi. Degree courses were introduced in 1930s, and the University recognized Indraprastha College as a degree college in 1938. After some years, the College moved to Chandrawali Bhawan in the Civil Lines, and was moved again to 'Alipore House' at Alipur Road (now Sham Nath Marg) to the office-cum-residence of the British Commander-in-Chief in 1938, where it exists till today.

The parent school and the College both grew out of the efforts of a group of philanthropists associated with the Theosophical Society of India. They were inspired by Mrs. Annie Besant, also a theosophist, who believed in and promoted education for women in North India, at a time when women were confined to home and realized their destiny in marriage and motherhood. The vision of the College intensified over the decades, and remains focused on the holistic development and empowerment of women.

The College has intersected the National Movement, the Education Reforms Movement, and the Women's Movement, and is itself a movement today. It has a glorious tradition of academics and service which has only grown over the years. Housed in a beautiful building, on a green campus spread over 14.5 acres, the College building was accorded heritage status in 2002. The College is a milestone in the heritage walk of colonial Delhi. As the College marches towards its centenary, it has added to its academic and infrastructural resources, always mindful of its core vision to empower and mainstream the marginalized.

The College is in the 99<sup>th</sup> year of a glorious journey. We have already initiated various activities and have plans spread over the coming year towards its 100-year celebrations. This includes major developments in infrastructure and academic expansion, ranging from new blocks to new courses. In pursuit of academic excellence beyond the classroom. The Centenary Decade Undergraduate Research Grant is given by the College every year to promote research in various fields that have theoretical, conceptual, methodological and policy implications. A decade long Round Table Conference on Gandhi was initiated in 2014 that will culminate in an international symposium in the centennial year.

## Vision

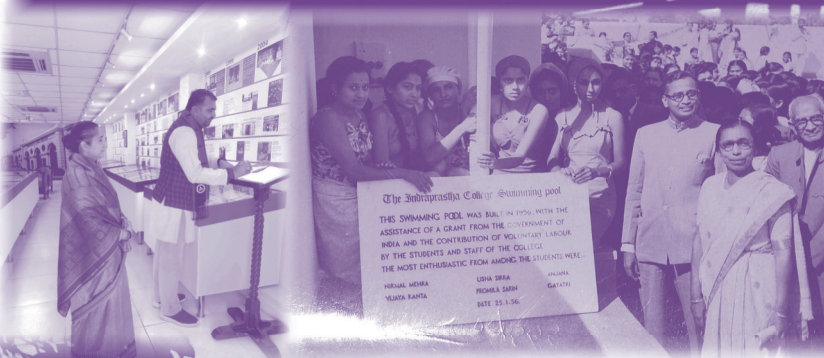

The Vision of the College is to educate, enable and empower young women, emphasizing the need to mainstream the marginalized and weaker sections among them to ensure justice and equity in society.

## Mission

The Mission is to steer the education it offers not only to lead to the pragmatic goal of employability, but also to build a life of the mind and sensitize and orient its students to the service of the community, in the quest for a better life for society and the world that we inhabit. The College endeavors to nurture confident and responsible citizens who will uphold the values enshrined in the motto of the College "Truth, Love, Knowledge, Service". To this end, the College's mission statement is set out as definite tasks which define the College's distinctive characteristics in terms of addressing, the students it seeks to serve, the institution's traditions and value orientations, the needs of society and its course for the future. The Mission is dynamic and its tasks are defined and periodically reviewed to meet the challenges and opportunities of changing times.

## Museum and Archives Learning Resource Centre

The College Archives, first set up in 2006, was expanded into a Museum and Archives Learning Resource Centre (MALRC), and relocated in a modern, disability-friendly display gallery in 2015. They are a testament to the history of the College, and its transition, over time, into a modern and progressive institution. QR codes with details on select displayed items are available and linked to the College Website. The Centre releases a heritage calendar on archival themes and material every year. It actively supports research activities for refereed researchers from both college and outside.
