ADVISORY
FOR KG HOSTEL RESIDENTS

As per reports received from the Warden, the Discipline In-charge, residents students, including members of the Hostel Union, Hostel Manager, and personnel from the pesticide company, there has been no detection of bed-bugs in the KG Hostel rooms. The rooms have been continually checked and treated over the past two weeks. Students are advised to keep their rooms and surroundings clean and dry as a preventive measure for any kind of bug or pest, which may be attracted due to the unusually prolonged wet season also. In case, there is any sighting or any other development regarding this, students may report to the authorities directly.

In the meantime, all stakeholders are cautioned to not indulge in rumours or create panic around any issue, without verification.
