NOTICE

Re: Late Arrival in the Hostel in Semester III/V

The College has received representations from students who are reporting late to the Hostel citing their travel plans. They are reminded that on page 7 of their Hostel Prospectus 2018-19 under which they have taken admission, it is clearly mentioned that **"students arriving late to the hostel in the academic session, risk losing their room to a waitlisted candidate"**. Further, the students and parents have signed an undertaking at the time of admission that they **"will follow the academic calendar of the College/University as informed"** when they plan their **"home/other visits"**.

In view of the above, students arriving later than permitted by the College, will be given a room in the hostels, only subject to availability and other eligibility conditions.
