

**Report of Eco Club,
Indraprastha College for Women
From July to December 2019**

The Eco Club strives to spread awareness amongst the students about the various issues that are being faced by our planet regarding our environment and to foster an eco-friendly environment in the college campus.

The Eco Club organized various events and activities during the first half of this session of 2019-20.

On 12th September, 2019, Eco Club organized a "Nature Walk" within the college campus. It was started at 6:30 in the morning. It was an extremely humid day but it did not stop the environmental enthusiastic students from exploring the beauty of campus. The students were acquainted with the different calls of birds, their color, body shape along with the uses and qualities of plants.

Then, on 16th September, 2019, two volunteers of Eco Club had taken part in a Paper Presentation to represent our college which was organized by NCT Delhi on the occasion of International Ozone Day celebration on the theme - "32 years and healing" .

Next event was organized on 27th September, 2019, it was a workshop based on "Menstrual hygiene and promotion of bio-degradable pads" in collaboration with IGDTUW and WWF (India). It was an interactive session with fun games and goodies which helps the students to understand the importance of using nature friendly menstrual hygiene products like menstrual cups and bio degradable pads and how to use them.

The next activity was an outreach programme on 25th October 2019, in which volunteers of eco club had visited a nearby school and an interactive session was held with the school students in the morning assembly on the topic "Say No to Crackers and let Delhi breathe". The activity was followed by an interactive session with the parents of students too and in this way the outreach programme became a successful awareness campaign.
