Report on Green Initiatives under Azadi Ka Amrut Mahotsav

National Service Scheme, Indraprastha College for Women celebrated 'Green Initiatives' under Azadi ka Amrut Mahotsav from 12th-13th August, 2022. The college has undertaken various projects in its effort to become a sustainable, eco-friendly and waste-neutral campus. Initiatives like waste management through organic waste composters, plastic collection room and several leaf composters around the campus along with rainwater harvesting have been among the many projects that were set up a few years ago and continue to work efficiently. These initiatives have encouraged everyone on campus towards sustainability and helped to make the environment cleaner and less waste generative.
