COMMUNICATED / UNDER REVIEW**Kanishka Mavi**

Mavi, K. (2026). *Comparative analysis of pathfinding algorithms: A, BFS, Dijkstra and their hybrids in mazes**. Manuscript submitted for publication.

Nandini Sharma

Sharma, N. (2026). A feature-driven IoT intrusion detection framework using machine learning for enhanced detection of anomalies. Paper presented at the 5th International Conference on Advances in Science, Engineering & Technology (ICASET 2026), Chennai, India. To be published in conference proceedings (ISBN: 978-81-981425-8-0).

Laxmi, Muskan Tanwar, Anshika Chauhan

A comprehensive review of blockchain-based document authentication: Trends, challenges, and future directions. Manuscript submitted for publication, *International Journal of Information and Computer Security*.

Mihika Kishor

Fault tolerance in cloud computing: A unified machine learning perspective on failure prediction. Manuscript submitted for consideration at the International Conference on Emerging Trends in Artificial Intelligence and Computational Sciences (ICET-AICS 2026), Ramanujan College, University of Delhi.

Drishti Adlakha (publication details not confirmed)

Adlakha, D., & Singhal, A. (2026, February 20–22). Deep

learning system for autonomous livestock intelligence [Paper presentation]. International Conference on Mathematical Sciences and Computational Intelligence (ICMSCI-2026), P.G.D.A.V. College, University of Delhi, New Delhi, India.
